

Nazi Battleship Crippled By Daring British Subs

Germany's newest and mightiest battleship, the 35,000-ton Tirpitz, has been severely damaged by British midget submarines which invaded the lair of the warship in Norway's Alten Fjord and hurled torpedoes into the Nazi dreadnought and possibly hit other major German naval units. The attack took place Sept. 22. Three of the British subs that took part in the daring raid were lost. The picture above, a British Air Ministry photo, shows the Tirpitz lying close inshore at Aas Fjord.

Plans for North County War Chest Campaign Are Completed

Plans for the campaign to raise \$40,000 for the Community War chest of Northern Columbiana county were made at a dinner meeting of chairmen from the cities and townships in this part of the county, held last night in the Lape knotty pine room.

Half of the quota set for this territory for the support of 17 member agencies of the National War fund has been allotted to Salem, leaving \$20,000 to be raised in the other cities and townships.

Presiding over the meeting was Atty Ralph Atkinson, chairman of the Northern Columbiana county organization, who outlined details of the campaign and distributed supplies to the chairmen.

An inspiring talk on the needs of the agencies seeking funds, and methods of campaigning used in Youngstown, was given by Andrew O. Fleming, secretary of the Youngstown Community Chest association, who has been engaged in this work for 30 years.

Opens Next Monday
The campaign will open next Monday and will continue through next week.

More than half of the funds sought will go to the aid of the USO, war prisoners aid (for American and Allied prisoners held by the enemy), and for the United Seamen's service, an organization to assist the men in the merchant marine service.

The other 14 Allied war relief agencies which participate in the fund are: Belgian, British, French, Greek, Norwegian, Polish, Russian, Chinese, Czechoslovak and Yugoslav relief; Friends of Luxembourg; Queen Wilhelmina fund; refugee relief trustees; and the U. S. committee for care of European children.

The funds raised at this time are expected to take care of all three agencies until next Sept. 30, as no other campaign will be conducted for another year.

The War
Today...

By DeWitt MacKenzie
AP War Analyst

GENERAL Charles De Gaulle's sudden move in orienting French policy in the direction of close friendship with Russia has given the Allied wheel of fortune a lusty spin.

It is significant of the fact that some of the biggest battles of this war are political. We shouldn't forget that on the eve of the Moscow meeting of the foreign ministers of the big three — the United States, Britain and Russia — to iron out differences between the Soviet union on the one hand and the Anglo-American Allies on the other.

Undoubtedly this conference, and the one projected between President Roosevelt, Prime Minister Churchill and Premier Stalin, will rank among the momentous parleys of history. We can say this because it's clear that agreement now among the big three on military and political issues is essential if another world war isn't to grow out of the "peace" of the present conflict.

The gesture by De Gaulle, as co-president of the French Committee of National Liberation in Algiers, cannot but strengthen Moscow's position. The general announced this policy with the unequivocal comment that the Mediterranean is a pathway for "a natural alliance with dear, powerful Russia." You don't need a diagram to explain that. The Soviet is reciprocating this sentiment by intense cultivation of the present French leadership, which De Gaulle shares with General Henri Giraud.

France's position in post-war Europe and her alliances naturally are questions of the utmost concern to all members of the big three. It mustn't be overlooked that while France is down now, she was and will be again one of the paramount powers of Europe. Her affiliations and the complexion of her government loom large.

HOWEVER, other delicate questions will come before the conference, and the Communist party organ Pravda calls attention to one of the warmest by what appears to be another oblique reference to the lack of the "second front" which the Russians have been urging. Pravda says early crushing of the Germans is an actual possibility and should be carried out in short order. The article gave indications of im-

Hiring In 149 Critical Occupations Directed to USES Offices

(By Associated Press)
CLEVELAND, Oct. 12.—The regional War Manpower commission issued an employment stabilization plan today requiring all hiring in 149 critical occupations in Ohio and neighboring Michigan and Kentucky to be done through the WMC-controlled U. S. Employment service.

The regional plan becomes effective Friday, the same date on which manpower controls designed to hold down migration and check wasteful turnover become general throughout the nation.

Because of its broad provisions the regional WMC was understood to regard it as the last step that could be taken before a labor draft. While controlling all hiring for critical jobs, it also prevents a worker from leaving such a job to take a non-essential one without uses permission.

Brought under USES control were a variety of skilled occupations in aircraft, foundries, engineering, shipbuilding, tool designing as well as refractory brick layers, all-around cabinet makers, railroad conductor, and certain classifications of foremen, inspectors, instructors, public accountants, and others. The list is generally the same as the one which the WMC in Washington announced recently as its latest roll of critical occupations.

60 Attend Columbus
Day Banquet Here

A Columbus day banquet, given by the Knights of Columbus last night at the lodge hall, was attended by 60 members and guests, including Rev. Fr. Herbert Cook, his brother, Rev. Fr. Adelbert Cook and Rev. Fr. William O'Neil of Youngstown.

The banquet honored Rev. Fr. John P. Lavelle, new assistant at St. Paul's church, who came here recently from St. Brendan's parish in Youngstown. Fr. Herbert Cook, former St. Paul's parish assistant, is now at St. Brendan's.

Grand Knight Ralph White-leather presided at the program which featured a talk by Salem High Coach Ben Barrett. Barrett discussed his coaching activities here and showed movies of football games.

Rev. Fr. J. Richard Gaffney, as chaplain of the council, spoke of Columbianism and future activities of the group.

The banquet and program were arranged by Lecturer Fred Steffel, assisted by the parish women.

A large Salem delegation is expected to attend a county K. of C. meeting in Leontia Thursday evening, Oct. 21. Speakers will include State Deputy Edward McHugh, State Chaplain Rev. Fr. William O'Donnell and Supreme Director Ray Miller of Cleveland. Other council in East Liverpool, Wellsville, Salineville, East Palestine will be represented.

Strategic Greek Island Entrance to Adriatic Undergoes Bombing

(By Associated Press)
ALLIED HEADQUARTERS IN ALGIERS, Oct. 12.—North African air force bombers, pursuing the attacks on the Germans in the Balkans and the eastern Mediterranean for the seventh successive day, struck a smashing blow yesterday at the Nazi airfield on Corfu, strategic Greek island dominating the entrance to the Adriatic. Allied headquarters announced today.

On the rain-bogged Italian battlefield, only artillery and patrol actions were reported as Fifth army troops along the swollen Volturno river front prepared for an assault on powerful German positions.

U. S. Mitchells sweeping from Italian bases and escorted by Lightnings struck at Corfu, bombing the Garitza airfield and the Lightnings scored two direct hits on a merchant vessel in Corfu harbor.

New raids on Calato airfield in Rhodes and Heraklion airbase in Crete also were announced. These missions were undertaken by American Liberators that poured bombs among parked aircraft and buildings near the airfields.

Planes Return Safely
Bomb-carrying Lightnings made their first raid on the Antimachia landing ground on the island of Cos in the Dodecanese. This airfield has twice changed hands in fighting there.

RAF bombers hit the airfield at Rhodes Sunday night, laying bombs in the aircraft dispersal areas and on the runway and starting fires. The raiders returned without loss.

In Italy, Allied fighter planes patrolled the battles area without meeting enemy aircraft.

All the planes returned safely, he communique added.

Heavy rains still impeded the Allied troops along the Volturno and across the mountains to Terni on the Adriatic.

Artillery duels rumbled along both the Fifth and Eighth army fronts, and Eighth army patrols were aggressive, a dispatch from Gen. Sir Bernard L. Montgomery's headquarters said.

These advance units encountered German tanks in one foray west of Terni.

Enemy opposition was increasingly stiff, but the Eighth army forces aimed ground in some places, it was announced. British artillery shelled enemy positions heavily southwest of Colliortio, hitting some vehicles in the roads.

Timely Warning!

Watch Those
Brush Fires,
Chief Pleads

Fire Chief Vincent L. Malloy today warned property owners against burning leaves or trash near buildings or on public streets, alleys or grounds. A city ordinance prohibits burning of trash within 50 feet of any building, unless the fire is confined to a container, or on public grounds.

The chief asked parents, particularly, to keep matches away from children who endanger lives and property by lighting them during play. Burning leaves and waste materials are urged to watch the fires closely, and to put them entirely out before leaving them. Leaves are apt to smolder for a long while, burst into flame again unless properly extinguished, Malloy said.

Once started, grass fires can assume formidable proportions in a short time.

Columbiana Solicitor.
Election Board Head

Att'y W. O. Wallace, chairman of the Columbiana county board of elections and an active Democrat, died of a heart attack at 2:30 a. m. today at his home, 1 N. Main st., Columbiana. He was 69.

The son of the late Mr. and Mrs. William C. Wallace, he was born in East Palestine May 12, 1881, and went to Columbiana in 1906 where he set up a law office at 118 1/2 S. Main st. The last member of his family, he was married in 1913 to Stella George at East Palestine.

He was a member of the Columbiana Presbyterian church, Masonic lodge of East Palestine, Knights of Pythias lodge of Columbiana, Columbiana Kiwanis club and the Ohio State Bar association.

One of the county's active Democrats, he was city solicitor for Columbiana the past 25 years and at one time had served as postmaster for several years.

He was a graduate of East Palestine High school, the School of Engineering of the University of Missouri and a graduate of Law school at Ohio Northern university, Ada, in 1904.

He is survived by his widow, Mrs. Stella Wallace.

Private funeral service will be held at 3 p. m. Thursday at the home in charge of Rev. J. K. McDvitt. Burial will be in Columbiana cemetery.

Friends may call at the residence Wednesday afternoon and evening and until noon Thursday.

Cope Is Advanced

Portugal Acts
To Aid Allies
U-Boat Fight

(By Associated Press)
LONDON, Oct. 12.—Tiny Portugal, Britain's oldest ally, has granted the British anti-submarine bases in the Azores islands—the crossroads of the Atlantic—Prime Minister Churchill announced today, but will remain neutral in the war.

Churchill, announcing this step vastly strengthening Allied ability to combat resurgent Nazi U-boat warfare, told the house of commons that President Roosevelt had been kept fully informed of the negotiations.

The Azores lie 1,000 miles west of Lisbon on the air-ways and sea lanes from Portugal to the United States.

Amid numerous rumors that the Portuguese, who now are engaged in the biggest military maneuvers of the war, might declare hostilities against Japan, Prime Minister Churchill disclosed in the house of commons that Antonio De Oliveira Salazar's government had acceded to a British request for facilities to aid the Allies in their fight against the submarine menace.

MAN KILLED IN
TRAFFIC CRASH

Lloyd Sutherin of East Palestine Is Victim In Route 14 Mishap

Lloyd Sutherin, 45, of East Palestine, a mechanic, was injured fatally early this morning in the collision of a truck and an automobile on Route 14, five and one half miles east of the Route 5 junction, east of Columbiana, the state highway patrol reported.

Sutherin died in the Salem City hospital at 8:30 a. m. as the result of a fractured skull.

Belief F. Kline, 41, also of East Palestine, driver of the car in which Sutherin was riding, escaped with abrasions and bruises.

The truck driver, John Klink, 34, of East Palestine, was uninjured, the patrol said.

Coroner Arnold Devon is investigating.

State Highway patrolmen learned that the passenger vehicle ran into the rear of the truck after passing another truck on the highway. All vehicles were going east at the time.

Kline told the officers he didn't realize there was another truck ahead. He said he thought it was a shadow in the road.

Mr. Sutherin, who was employed by the Charles C. Harriott Trucking Co. of East Palestine, had been a life-long resident of that city. He leaves his wife, Mabel, and four sons.

Funeral arrangements have not been completed.

Army, Navy Training
Programs Offered
To Students Here

The second test to qualify students for the Army specialized training program and the Navy college program V-12 will be given here at Salem High school, Principal B. G. Ludwig announced today. Similar tests are being given throughout the country.

A pamphlet which contains an admission-identification form may be obtained at the principal's office. Properly filled out, the form will admit to take the test students from 17 to 21 who are recent high school graduates or students who will graduate by March 1. Those who desire to take the examination should notify Principal Ludwig by Friday.

The same examination is taken by Army and Navy candidates, to test aptitude and general knowledge required for the college training program. When taking the test candidates will be given a choice of service preference, but taking the test does not obligate the candidate to enlist.

The specialized training programs of Army and Navy enable students to continue academic training at government expense following induction into the armed forces.

WHO'S GOT THE MONEY?

Philip Murray, president of CIO, would like to testify before the house ways and means committee that excess spending money is not in the hands of low income groups. Of course, as almost any white collar citizen can testify in his own behalf, he doesn't have it, either. High income groups can adduce all kinds of evidence that they don't have it. But this does not mean that the excess money does not exist—far from that.

It only means that its existence is not admitted by the component parts of a population clinging tenaciously to a belief that somehow or other it is going to pay for a war and go on living as usual. It still is not acknowledged popularly here that the cost of the war is going to entail giving up most luxuries and many necessities, and so far the government has chosen to encourage the illusion by sidestepping most of the realities of wartime taxation. In this mistake it has been supported by congress, whose members still stick faithfully to the rule that nothing is so unpopular with their constituents as an increase in taxes. Congress, in turn, has been supported by the people; they have not been clamoring for realistic taxation.

Ultimately, of course, the illusion must be shattered, either by taxes raised to suit the need now, or by inflation later. In Great Britain the excise tax on liquor, to name one example, is \$4.50 a fifth, as against \$1.20 here. The tax on cigarettes is about 38 cents a package. The British sales tax rises to 100 percent on jewelry, cosmetics and furs, 1-3 percent on semi-luxuries and 16-2-3 percent on necessities. Individual income taxes begin at 50 percent, except for the smallest incomes. The British have made many mistakes in the war, but they have quit spoofing themselves about no one being able to pay more taxes.

STANDOFF

Russia has good and sufficient reasons for not violating its diplomatic arrangement with Japan whereby each country has the benefit of the other's "neutrality." Nevertheless, the effect of airing the matter in this country, which seems to be the purpose behind the claim that many American lives would be saved if the United States could use Siberian bases in its war with Japan, will be good.

It will offset the insistence of Russia and Russian sympathizers in this country that the Allies should launch a frontal attack on Germany from England. The Allies, too, have good and sufficient reasons for the way they are fighting the war. Like Russia, they will change their strategy when a change is dictated by the best judgment of their governments. For the time being, the argument about a second front is a standoff.

BATTLE OF THE BOMBERS

Several current news items fit neatly into the puzzle picture of air strategy. Germany has attempted air raiding over Britain in force—not massed, as in its raids of past years, but with a force of approximately 60 bombers, most of which apparently were turned back short of their target, London. Japan has turned out improved versions of its Zero fighters and new bomber models. In the United States, air raid precautions on the east coast have been lifted as a result of official conviction that the danger of bombing raids no longer is actual, but only nominal.

The battle of the bombers will be the major military lesson of the war. Everything that has been learned since Germany unleashed its air power at the beginning of the war will be analyzed endlessly in the post-war years to establish the powers and weakness of air power for future use. Experience will prove what theory never could prove: Whether or not the airplane has necessitated complete revision of the classic rules of war.

One fact already is undisputed. Ability to replace planes is fully as important as the quality of the planes and their operation. Germany still has excellent planes and fine pilots, but the planes are not being produced fast enough to keep abreast of the production of the United States, Great Britain and Russia. Communications from all fronts reveal that the German air force no longer is taking great risks for great gains; it is being driven ever closer to a policy of conservation, and war cannot be waged successfully by conservation. In the long view it may be plain that Germany began to lose the war when it began to lose the complete command of the air that made it invincible in 1939, 1940, 1941 and even, in some war theaters, as late as 1942.

THE STARS SAY:

For Wednesday, October 13

A DAY of exceptional promise for the fruition of cherished plans and ambitions, with enhanced prestige and popularity, increased finances and credit, with the energies and initiative enthusiastically expended on programs of major significance. In this there may be promise of substantial support from those in high places, vanquishing some opposition from employers or others. It is a time for pushing to desired goals, in business as well as in social and sentimental aspirations. Aim high and perhaps there may be fame at the end of the road as well as great personal happiness.

If It Is Your Birthday

Those whose birthday it is may be on the eve of a very active, enterprising and ambitious year, with all manner of plans and objectives reaching high levels of production, progress and personal gratifications. Important personages should be ready to assist, despite opposition from certain quarters. There should be increase of credit and funds, enhanced prestige and popularity, with social as well as romantic aspirations generously fulfilled. Push to high goals.

A child born on this day should be extremely ambitious, justified by unusual enterprise, efficiency and personal influence and popularity, all fortified by abundant tokens of good luck and fair fortune.

THE SCENERY WAS LOVELY

(Ohio State Journal)

Mrs. Eleanor Roosevelt, the publicity-loving, pleasure-seeking, super-privileged wife of the President, is home from her 25,945-mile junket to the south Pacific. She returned in the same four-engine Liberator bomber that carried her away. She spent approximately 104 hours in the air, used between 18,000 and 25,000 gallons of precious gas, caused to be taken 23,000 feet of hard-to-get photo film, then crowned it all by using two limousines to convey her party from the airport in New York where she landed to her downtown apartment.

The gas she used would have supplied approximately 8000 autoists with a week's rations; the films she had taken would have supplied thousands of people who are told at their camera or drug shops that none is to be had; the bomber certainly could have been put to a better purpose, and those big limousines rolling down New York streets must have given many a gasless car owner a momentary feeling that something is amiss in this country when everybody but Eleanor is asked and even ordered to sacrifice.

And all for what? One wonders. She served no purpose useful to the war or to the country, but maybe she did serve, or try to, the political interests of her fourth-term candidate husband. It is noteworthy that General Douglas MacArthur was busy at the front while Eleanor was in his domain, and that fact cannot have escaped public attention.

How many thousands of dollars this trip cost the people cannot now be estimated. But the cost is not what bothers, so much as this unseemingly flaunting of power, this flouting of the rule of equality of sacrifice and this all-out exhibition of Mrs. Roosevelt being immune from the rules and regulations the rest of us must live by.

The soldiers are going to vote in the next elections. The President is going to be candidate. Mrs. Roosevelt is just as shrewd a politician as her husband. There are lots of soldiers in the south Pacific, and if Eleanor could impress them that Pappy in Washington had sent Mammy down there to assure that their welfare is foremost in his mind, it might mean a lot of fourth-term votes next year.

If there is any other honest explanation for this useless, expensive and privileged trip, it ought to be forthcoming. Until it is, the people will resent Mrs. Roosevelt's usurpation of privilege and her use of government equipment, paid for by the taxpayers, to find material for a syndicated column for which she is well paid, and to spread the political propaganda of her husband and his New Deal Party.

Croup Is Often a Symptom

By LOGAN CLENDENING, M. D.

CROUP is a good old-fashioned word which has a very definite meaning for the mother, but may be due to any of several conditions. What it actually is and what it means to the mother is a symptom—a child whose nose and wind-

pipe are so stopped up that it breathes in a wheezing way and when it coughs there is a crowing, or rattling, quality which plainly sounds as if the breathing passages were stopped up.

And, of course, they are stopped up. An infection, some kind of a germ has infiltrated the mucous membrane of the nose, the larynx and windpipe, causing an inflammatory reaction, including swelling of the lung and narrowing the passageway.

The only question the doctor wants to ask, the only addition he makes to the diagnosis concerns the cause. Diphtheria used to be called also membranous croup, and twenty or thirty years ago the chances would be that if a child were reported to have croup, the cause would be diphtheria. But thanks to the universal use of diphtheria immunization, the disease is rarely seen nowadays. I have before me the latest reports on diphtheria in the United States in 1941 and 1942, and find that in 21 cities there have been no deaths from diphtheria at all in those years.

Serious Croupy Condition However, there is another fre-

quent and serious condition that causes croup in children, mostly attacking those under eight years of age. It is a general infection of the throat, larynx, and windpipe, causing the lining mucous membrane to swell even to the point of obstruction, shutting off the breath. It has, therefore, assumed very serious proportions. The name given to it is acute laryngo-tracheitis, which doesn't mean very much, since it seems to be due sometimes to one germ and sometimes to another. It is, however, a very serious malady.

In spite of the vagueness about causation it constitutes, by its symptoms, an entity. It can be distinguished from colds and mild forms of respiratory infection by the fact that the symptoms tend to get progressively worse. The child with a cold begins to get better and brighter after the first day, or at most, two days. But not so with this affection. The child is more and more prostrated.

Hospitalization Necessary If the symptoms therefore do not respond to steam inhalations and ordinary cold remedies, the little patient should be placed in a hospital, because the windpipe may close up. Oxygen inhalations may be necessary. The new penicillin seems to be doing a great deal of good in these cases. The sulfa drugs are also valuable in certain of the cases.

The air in the sick room should not, like the air in the sick room of the pneumonia patient, be cold and stirring. It should be about 70 to 75 and humidified.

The condition develops most often in children under two years of age. At this age period the baby who has a cold, and who keeps get-

ting worse and croupy needs a doctor right away.

QUESTIONS AND ANSWERS

E. E. W.—Is it possible to tell an acid condition in the stomach by the change in color of a specially treated piece of paper (I think it is called litmus) when wet by the saliva of the mouth?

Answer: The stomach is always normally acid. The saliva is always normally alkaline. You cannot tell anything about the reaction of the stomach from the reaction of the saliva.

E. E. W.—Is it possible to determine by an analysis of a drop of blood taken from the finger:

(a) Poor circulation in the chest?

(b) If there are cancer germs in the body?

(c) That part of the liver is not functioning, and what percentage of the organ is inactive.

Answer: (a) No.

(b) Cancer is probably not caused by a germ, and if it is, nobody knows what the germ is, and anyway it is not possible to diagnose cancer from a drop of blood.

(c) Something can be told from liver functioning by examining about 5 c.c. of blood, but not from a drop.

Theatre Attractions

Sidney Greenstreet and George Raft in an exciting scene from Warner Bros. "Background to Danger," a picture of intrigue, death and romance.

A Nazi plot to destroy relations between Russia and Turkey furnishes the theme for "Background to Danger," featured at the State Wednesday. George Raft is cast as Joe Barton, a G-man who runs head-on into murder and trouble when he meets pretty Osa Massen on a railroad express. The lady entrusts him with an envelope that presumably contains all her money and securities. The envelope proves to be dynamite that shoots Raft straight into the center of German intrigue and Russian counter-espionage.

Charles Boyer portrays a musician who falls in love with two women in "The Constant Nymph," which shows at the State Thursday, Friday and Saturday.

Tonight and Wednesday "Revenge of the Zombies" shows at the Grand theater with John Carradine and Veda Borg in the leading roles. Also showing is "Honey-moon Lodge," starring David Bruce and June Vincent.

Roy Rogers, king of the cowboys, has the featured role in "Man From Music Mountain," billed at the Grand Thursday, Friday and Saturday.

Salem Dogs Aid War Effort In Dogs For Defense Program

Dog owners in Salem and vicinity, who are wondering what further aid they can give to the war effort, might find the answer in the Dogs for Defense movement.

A nationwide program for training household pets to serve with the armed forces, Dogs for Defense has already played its part in the global war, with thoroughly-trained, well-disciplined canine observers, scouts, messengers, first aid bearers and guards carrying their share of the battle.

Wade Allen, 420 W. Fifth st., local chairman of the program, will give information on the program and application blanks to enlist dogs in the cause. Mrs. R. W. Champion of Chagrin Falls is regional director.

Already Serving
Two Salem dogs, a retriever owned by Dr. Gail A. Reese and a Doberman pinscher belonging to Allen, already have been sent—probably are serving—somewhere overseas with their respective units.

Allen's dog (pictured here), already trained in police and obedience work when enlisted, was sent to the Marines. Sent to Cleveland for tests and examinations, he received his training at the Front Royal, Va., station and has six months active service to his credit.

Enlisted for the duration, dogs are given the finest type of training by expert handlers to qualify them for their work and at the close of the war, they either are returned to the owner with a record of their service, citations and whatever honors they may have earned, or disposed of to the best advantage.

That their part in the winning of this war is not inconsiderable is proven by the way the services rate them—"A soldier and one dog equals five soldiers"—for the a dog's keen sense of smell, sight, hearing, directional instincts and natural senses make him an invaluable ally and an implacable, hard-to-fool foe.

Animals Invaluable
Dogs are used in many forms of service, as messengers, carriers of ammunition packs, medicines, foods, for close-quarter attacking, in scouting enemy positions, in coastal patrol duty, sentry and guard work.

To be accepted for duty with the armed services, a dog needs only to be in good general health, possessed of normal disposition and intelligence. He does not need to be a thoroughbred or full blooded variety, nor pedigreed. His disposition, characteristics, temperament,

"Dobie" Has Enlisted

size, age and weight are important. The Army and Navy both prefer dogs under five years old, which weigh at least 50 pounds and measure at least 20 inches or more at the chest.

Nearly all the larger breeds of dogs are sought, including alabai terriers, Alaskan malamutes, Belgian sheepdogs, boxers, bull mastiffs, retrievers, collies, Dalmatians, pinschers, Eskimos, German shepherds, German pointers, giant schnauzers, Irish water spaniels, pointers, smoyeds, huskies, poodles and crosses of any of these breeds.

Anyone interested in registering his dog in the Dogs for Defense program is urged to contact Allen, phone 6761.

SHOW ME, FRANKLIN
SHERIFF DEMANDS

COLUMBUS, Oct. 12.—Jacob E. Sandusky, Franklin county sheriff and Democratic nominee for mayor of Columbus, called in person today upon Dr. James Thomas, pastor of Broad Street Methodist church and demanded to be taken to places where the pastor asserted in a sermon that gambling has flourished.

It all was another offshoot of a cleanup demanded last week by Acting Mayor Arvin J. Alexander, which pitched the city hall into dithers, set the town agog, and brought from Alexander an order—never filled—that Police Chief Otto Kaffits be suspended. Alexander is a Democratic candidate for election to council.

Farm Machine Rationing Reduced to Only 31 Items

(By Associated Press)

CHICAGO, Oct. 12.—Farm machine rationing will be reduced from 91 to 31 items and redistribution controls will be halved, a War Food administration official said today.

Such items as tractors, harvesters, milking machines and feed grinders remain on the ration list under the new program which will become effective Oct. 15.

Lee Marshall, director of the office of materials and facilities of WFA, in a speech prepared for the National Food Producing Equipment conference, said "the better outlook for machinery production in 1944 has made it possible to provide a more flexible program that should make it easier to meet farmers' needs locally."

He said authorization for manufacture of new machinery next year has been doubled—80 per cent the 1940 output, compared with authorization of 40 per cent of 1940 for the last year. There will be no quota restrictions on the making or repair parts.

BUTLER GRANGE

County Auditor I. J. Verndran will speak at a meeting of Butler grange Friday night. Other grange night program features will be presented by members whose birthdays are in July, August and September.

MRS. WILLIS WARD
LISBON, Oct. 12. Mrs. Katharine K. Ward, 45, wife of Willis H. Ward, died at her home north of Lisbon on the Columbiana road Monday afternoon after a lingering illness.
Mrs. Ward was born in Boston July 25, 1898, daughter of Mr. and Mrs. William D. Kenty, but practically all of her life had been spent in Lisbon. She was a member of the Presbyterian church. In 1926 she was united in marriage with Willis H. Ward, who alone survives her.
The body was removed to the Warrick funeral home in Columbiana where service will be held at 2 p. m. Thursday in charge of Rev. J. Morgan Cox, pastor of the local Presbyterian church. Burial will be in the East Cermel cemetery in Middleton township.
Friends may call at the funeral home Thursday afternoon or evening.

CARNEGIE INSTITUTE PRESIDENT IS DEAD

PITTSBURGH, Oct. 12.—Death came unexpectedly last night to Dr. Samuel Haden Church, president of Carnegie Institute, who offered a \$1,000,000 reward in 1940 for the capture of Adolf Hitler "alive and unhurt" because he believed the German dictator intended to violate the neutrality of Holland and Belgium and overrun Western Europe. He was 85.
The internationally known writer, lecturer, educator, traveler and organizer died in a hospital after an emergency operation for an emphysema.
He was made secretary of the institute board in 1877 when steelmaster, Andrew Carnegie gave the first of more than \$25,000,000 to that organization. In 1914 he became president of the institute.

RATION BOOK FOUR STAMPS VALID NOV. 1

WASHINGTON, Oct. 12.—The green stamps of the new ration book four will be used to buy canned fruits and vegetables beginning Nov. 1.

The Office of Price administration announced today that book four will be distributed in a nationwide schoolhouse registration between Oct. 18 and 30. Time and place will be announced locally.
The first series of green stamps—A, B and C—will be valid from Nov. 1 through Dec. 20. Under the customary overlap, the last blue stamps of book two—X, Y and Z—will be valid until Nov. 20. Values of the green stamps will be the same as the blue.

The green stamps will be used for processed foods only until the ration "token" system goes into effect early next year. Thereafter the blue and red stamps of book four will be used for processed foods and meat in conjunction with red and blue change tokens.

AIR HERO'S WIDOW, OFFICER WILL WED

(By Associated Press)
LOS ANGELES, Oct. 12.—Mrs. Celine P. Kelly, Jr., attractive widow of the air force hero, and Dr. J. Watson Pedlow, Philadelphia chemist and engineer and now Navy lieutenant (j.g.) will be married Friday.
Reports of the marriage plans were confirmed last night by her brother, Ted Wick, who declined to give further information about the ceremony.
At Philadelphia Mrs. Mary Pedlow said her son, who is 35, and Mrs. Kelley had been "trying to keep it a secret." Mrs. Pedlow said she knew they became engaged after he met Mrs. Kelly several months ago while he was on the west coast on duty.
Capt. Kelly gave his life as a bomber pilot to sink the Japanese battleship Haruna shortly after the Pearl Harbor attack. Mrs. Kelly and her three-year-old son, Corky, later came to southern California and had been living in Beverly Hills.

The plan, an amendment to the original regional plan, preserves strict controls over out-migration and in-migration, requiring clearance before leaving the present work area, and preventing migration into areas where such is limited by the WMC or USES.

Except for provisions governing migration, the plan generally does not apply to hiring of public employees, of school teachers, for vacation work, or to domestic servants, and the WMC added, "any worker or employer may appear from any act or failure to act by WMC under the plan."

JOB CONTROL

(Continued from Page 1)

The plan is for all parts of Ohio, Michigan and Kentucky which do not have at least equally strict approved local manpower plans. Thus it is applicable everywhere in this WMC region except in Lima and Sidney, O., and Louisville, Ky., the WMC said.

While a number of local plans are in effect, many have permitted such practices as "gate-hiring" in critical occupations. Now companies may not hire such workers at their gates, but must work through the uses which will determine which company has the best claim to a worker in the occupations designated as critical.

Robert C. Goodwin, regional WMC director who announced the plan, said its purpose "is to promote the most effective mobilization and utilization of manpower. Other objectives are to eliminate waste of manpower caused by disruptive recruitment and undue migration of workers, and to direct the flow of workers to jobs in the war effort for which they are most urgently needed."

Under the plan, uses approval is needed for hiring a new employee when:
The person is to be hired for work in a critical occupation, or his statement of availability indicates his last employment was in a critical occupation.

In-migrant Definition
The new employee is an in-migrant (defined as net living in or working in that area throughout the preceding 30-day period); or when

The worker's last regular employment was in agriculture and he is to be hired for non-agricultural work. Consultation with a War Food Administration representative is necessary before he may be given such referral, though he may be hired for not more than six weeks without a statement of any kind.

The plan, an amendment to the original regional plan, preserves strict controls over out-migration and in-migration, requiring clearance before leaving the present work area, and preventing migration into areas where such is limited by the WMC or USES.

Except for provisions governing migration, the plan generally does not apply to hiring of public employees, of school teachers, for vacation work, or to domestic servants, and the WMC added, "any worker or employer may appear from any act or failure to act by WMC under the plan."

Draft Dodger Given Chance To Accept Another Country

(By Associated Press)

NEW HAVEN, Conn., Oct. 12.—A federal judge pointedly invited an American citizen who failed to report for induction to leave the United States forever, but the invitation was turned down promptly.

After Stanley Mocarsky, 23-year-old arms plant worker from Hartford had pleaded guilty to failing to report for induction, Judge Carroll C. Hincks suspended sentence in the case yesterday "on condition the defendant shall accomplish his removal from the United States and thereafter shall remain outside its borders."

Mocarsky, married and the father of a child born last May, informed the court through his lawyer, Joseph P. Cooney, that he had decided to turn down the proposal that he quit the United States and asked for immediate imposition of sentence. The judge, however, continued the case for 30 days so that the accused and his family might have time to think it over.

Mocarsky, the court was told, refused to report for induction because he felt that the American people hadn't done anything for him; and that while he failed to obey the induction order, he stood ready to defend the United States if it was invaded.

High Schools Continue To Draw Large Football Crowds

6,500 TURNOUT HERE FOR LEETONIA GAME MAKES HEADLINES

Large Crowds Witness Tussles at Youngstown, Toledo, Steubenville

By FRITZ HOWELL
COLUMBUS, Oct. 12.—There may be gasoline rationing and travel restrictions, but you'd never know it from a glance at some of the crowds Ohio's high schools are drawing to their football games.

For instance: Some 12,000 fans sat in at Dick Wandtke ran 30 yards in the last minute to give Toledo a 12-7 win over Toledo Central Catholic last weekend; Youngstown East and Youngstown Woodrow Wilson drew 8,500 as East won 19-13; more than 7,000 saw Massillon's again-mighty Tigers beat Steubenville 33-6 after leading by only a point at the half; Salem, with a population of 13,000, drew 6,500 to its 13-0 win over Leetonia; 4,500 turned out to see Youngstown South and Alliance its first defeat, 13-0, as Dudley Turner, converted from guard to halfback, paid off with two touchdowns runs, one for 71 yards; and 4,500 others saw Youngstown Memorial beat Struthers 26 to 0.

Several of the big-time college games last Saturday failed to draw more folks than that through the turnstiles, but the Buckeye scholastics appear to be doing as well as ever at the gate—and on the gridiron.

Scores Four Touchdowns

On the personal-performance side, the pair for last week's outstanding feat goes to a kid named Romeo. He's Romeo Pellegrini, halfback for Massillon, who contributed four touchdowns to the Steubenville rout. John Tiltzski of Canton St. John also had a nice day with three touchdowns and an extra point against Brville-St. John winning 20 to 0. The splurge gave Tiltzski 74 points for four contests, which is the state's No. 1 mark until all the precincts are heard from.

Lorain mopped up with the weekend's finest comeback, scoring a pair of touchdowns in the last four minutes to defeat Shaker Heights 32 to 19. At one point the Lorain club was behind 19 to 7.

Shelby also spurred in the final minutes, scoring 33 in the final period for a 39-6 verdict over Gallatin; while long runs were the feature as Warren's Presidents offered the week's upset in holding Canton McKinley's powerhouse to a 13-13 deadlock. Leonard Corbin took a 51-yard pass, and Don Spencer raced 71 yards for Warren's touchdowns, while Halfback Tony Rotunno converted a pass into a 72-yard run for one of McKinley's markers.

Newark Rolls On

Lim Central unrolled on until last week, bowed to Springfield 12-0; Newark's powerhouse made it four straight with a 38-0 count over Chillicothe; Mike Zivkoff counted three touchdowns as Mansfield romped over Defiance, 26-6; Fredericktown made it 15 straight wins by shutting out Loudonville 32 to 0; Wilmington ran its goal points for three games to 152 with a 47-6 conquest of Hillsboro; Niles, one of last season's powers, lost its fourth straight, 7-13, to Elroy; Ironout beat its old rival, Portsmouth, 26 to 8, for four straight, and Van Wert duplicated that feat with a 20-0 win over Bluffton.

Logan, beating Wellston 31-0, kept its goal line unscathed while running up 101 points in three winning tilts, and Hamilton's 31-13 win over Newport, Ky., was its third.

Officials Careful Here

Lancaster and Marietta battled to a 7-7 tie, the band furnishing the feature. A band member fainted and was carried from the field, but a substitute horn-tooter warmed up on the sidelines, took over the victim's spot, and the band played on. Marietta might have fared better on its home lot, where it could have police department aid.

Norman Wolfe, 180-pound tackle is the son of Marietta police Chief Homer O. Wolfe; Larry Hume, regular end, is the son of Patrolman William Hume; and Veteran Quarterback John White is the son of Patrolman John O. White. Referees and umpires are careful in Marietta.

Rules On Star Boarder

SAN DIEGO, Cal.—The OPA rent control office has ruled that the star boarder or tenant who does not pay his rent may be evicted. The board has defined a "star boarder" as one who moves into a boarding house becomes "one of the family" and is generous in everything he does except paying his rent.

Bucky Harris, recently deposed manager of the Phils, led Washington to pennants in 1924 and 1925. The Senators won the series in 24.

Sergt. Joe DiMaggio Sued For Divorce by His Wife

LOS ANGELES, Oct. 12.—Sergt. Joe DiMaggio of the U. S. army, former star outfielder for the New York Yankees, was sued for divorce today by his wife, the former actress, Dorothy Arnold.

She asserted the ballplayer earned more than \$50,000 last year. Mrs. DiMaggio asked \$500 a month for her support and \$150 monthly for their child, Joseph DiMaggio III, now two years old, whose custody she asked.

Mrs. DiMaggio charged Joe with mental cruelty. They were married at San Francisco Nov. 19, 1939, and separated, she said in her complaint, Oct. 6. DiMaggio is stationed at the Santa Ana army air base near here.

Joe McCarthy has led the Yanks to American League pennants in seven of the last eight seasons.

SALEM HIGH FACES HEAVY WELLSVILLE TEAM NEXT FRIDAY

Quakers Travel To River City; Bengals Outweigh Them by 15 Pounds

The Wellsville Bengals, coached this year by John Cubas, who was mentor at Chester, W. Va., last year, should give the undefeated and untied Salem Quakers a real test Friday night at Nicholson field, when the Salem boys take their second road trip of the season.

Wellsville will present the heaviest problem Barlett's squad has had this season. Salem will be outweighed about 15 pounds to the man by a Bengal crew that boasts a line averaging 172 pounds and a backfield that hits the 168 mark average.

Although the Quakers' fifth opponent of the year hasn't compiled a good record of games won and lost, they have met stiffer competition. Coach Cabas' charges started the season impressively by downing Scienceville 37 to 0, and then dropped three straight, one to a powerful Canton Lincoln squad 27 to 0, and the next to Steubenville Catholic Central 24 to 0. Their third loss of the season was suffered last Friday at the hands of a favored Toronto eleven 14 to 6.

Bengals Use T Formation

The Wellsville team showed a great improvement in their game with Toronto last week and would have won the fray, if statistics decided the score. The Bengals piled up 11 first downs to 7 for Toronto and outstruck their opponents consistently.

Cabas features a modified T formation and uses his heavy line to good advantage.

The Bengals have attempted very few passes this season, but have gained consistently with the heavy, fast charging wall they use to protect their tricky T formation.

The Quakers have faced the touted T formation once this season and experienced plenty of trouble in fathoming it. In the Ravens game the Ravens used a T to good advantage and pushed the baffled home team around for two quarters before they managed to overcome it.

Wellsville, like Salem, has suffered considerably from injuries since before the season started.

He did play in the opening Scienceville game and managed to push across three touchdowns but was injured seriously the next week to 0 at Canton Lincoln. Although will not be in condition for the Salem game.

Others Injured

When Arbogast was disabled the Bengal mentor began using a 185 pound Negro, Jim Franklin, but he was injured the next week when he was smothered by Steubenville 24 to 0. Cabas is now using Jim Maley and John Carter alternately at the left half post, but Carter has an ankle injury and is not available regularly.

Other difficulties are found in the fullback spot where "Big Mike" Williams, 175 pound regular, suffers from an elbow ailment that keeps him out of the games at least part time. He is replaced by Jack Clover, another 170 pound griddler.

Wellsville looks to be the heaviest team the Quakers meet, with the exception of East Liverpool with an average of almost 179 pounds per man.

Yanks Celebrate Another World's Championship

Judge K. M. Landis, high commissioner of baseball, is hoisted in the air by happy Yankees in their clubhouse after the Yanks had defeated the St. Louis Cardinals, 2-0, in the fifth and deciding game of the World Series in St. Louis. Spud Chandler, who twirled the clincher for the Yanks and also won the opener for them, is at left. Nick Etten, first baseman, and Jim Turner, relief pitcher, hold Judge Landis. Johnny Lindell, Yank outfielder, is at right. It was the Yanks' 10th World series triumph in the last 20 years.—(International).

Cardinal Myth Explodes As Yanks Capture World Series

BY SID FEDER

ST. LOUIS, Oct. 12.—The scattered pieces of the busted St. Louis Cardinal bubble were being swept up for shipment to the nearest museum today as Frankie Corsetti was handed the bouquets and half a dozen Redbirds tried on sets of goat horns from the late lamented World Series.

One and all agreed no blockbuster ever went off any louder than the explosion of the Cardinal myth in this year's fall classic. When the New York Yankees wound it up on Bill Dickey's homer to win 4 games to 1 for the 10th world championship in their history, the Cards were as well beaten as the parlor rug in spring housecleaning.

So he did, Frankie's base running was the big factor in the first game win. He scored the only run in the losing second game. He was one of the key men in the big five-run eighth inning that won the third game—the batter the Cards had to walk with one away and runners on first and third so they'd have a play at any base.

Big Break of Game
His stop block of second on Walker Cooper's hit in the eighth inning of the fourth game, and the way he held Stan Musial at second on the play, was the big break of the tilt—the spot manager McCarthy said was the turning point of the game. And yesterday he came up with three chances he had absolutely no right to get to haul Chandler out of the stew. He hit in four of the five games, scored in three, and was a defensive brick wall.

He told a couple of pals before the series that he expected this was going to be his last fall classic. Well, he bowed out with the bells ringing.

Generally, the series was a dull affair. It set a new attendance record for a five-game fuss by drawing 277,312 through the turnstiles, including the all-time one-game high of 69,990 who saw last Thursday's scramble in New York. And it paid off the players on a record pool of \$488,005.74, from which each Yankee received \$6,123.20 and each Cardinal \$4,321.99.

The Yanks won six straight world series for Joe McCarthy before the Cardinals won the 1942 classic.

HERE IS A FARM PRICED AT NO MORE THAN A CITY HOME

Forty-two acres of the best bottom land that it is possible to have. This farm is located near Franklin Square and is improved with a good 6-room house under slate roof, electricity. Good bank barn equipped with stanchions for eight cows. Barn has slate roof and water inside. Other necessary outbuildings. These buildings are in good shape and would cost at least \$7,000 to put them there. We are offering this farm for quick action at the low price of \$5,000, which is no more than the price of a cheap city home.

If you have a farm of any size you want to sell, please get in touch with me immediately. I am now selling farms faster than I can list them.

KNOX HOME FROM BATTLEFRONT TOUR

Praises Allied Cooperation; Admits U-Boat Activity Can Be Serious

(By Associated Press)
WASHINGTON, Oct. 12—Back at his desk after an extended tour of European battlefronts, Secretary of the Navy Knox asserted today that renewed activity of German submarines in the North Atlantic can be considered "very serious."
Questioned at his press conference about reappearance of the U-boats after the late summer lull, as evidenced by a recent attack on an Allied convoy in which several ships were sunk, Knox stated:
"It is very serious. Let's not make a mistake about it. Submarine warfare will be serious to the end of the war."
On the other hand, Knox reported he had observed, on an inspection of the Atlantic coast all the way from Recife, Brazil, north, a "competent defense organization," and particularly praised Brazil's contribution to the fight against the submarine.

Lauds Brazilians
He referred to Brazilian air bases as becoming an increasingly important factor in that fight. Brazilian forces, he said, are being instructed by "the best men we have." In addition, he reported Brazil had a growing fleet of ships for use against the U-boat menace.
"The Brazilian picture," he said, "is one of marked and gratifying progress."
Secretary Knox said that the British submarines which have immobilized the German Battleship Tirpitz operated 1,000 miles from home with two man crews.
The submarines slipped through mine fields and nazes of submarine nets to launch their torpedoes against the mighty Nazi battleship in a Norwegian hideout.
Knox, in his first press conference since his return from a 25,000-mile tour of European battlefronts, said that the attack on the Tirpitz was carried out while he was in England and was "characterized by a high spirit of daring and courage that is amazing."

Daring and Difficult
It was one of "the most difficult things ever attempted and was a success," he said.
He said that the American Navy had been acquainted with British experimentation in the midket type submarines for "eight or nine months, perhaps a year."
Knox reported a high spirit of cooperation between British and American forces in England, the Mediterranean area and elsewhere on his long tour.
Knox told also of seeing a part of the battle of Naples from a PT boat, and described the damage to the city as "frightful." More than 70 vessels, he said, were sunk in the Naples harbor in an attempt to make it impossible for Allied troops to land men and equipment.
Knox said German submarines are being sent into the Mediterranean, but that it would be a "rational assumption" that part of the British Mediterranean fleet will be freed for operations in Pacific waters, now that the Mediterranean has been cleared of enemy surface craft.

THEFTS, BURGLARIES PROBED BY POLICE

Police today are investigating reports of three thefts which occurred within the last few days.
Mrs. Nellie Mossey reported that B and C gas ration coupons had been taken from her car while it was parked at the rear of her restaurant, 635 E. State st. during the weekend. Thieves forced open the glove compartment to get the coupons.
A store operated by Mrs. Katherine Gunesh on Newgarden st. was entered Sunday night by thieves who rifled the cash register and desk, broke the front of a cigarette machine without obtaining any loot. Entrance was gained, police say, by prying open a cellar door and a door leading upstairs into the store.
A quantity of gasoline was stolen by thieves who Sunday, broke into a service station, W. State st. and the Benton rd., owned by Jack Johnson. When he opened the station Monday morning he found the locking arm on a rear window had been forced and the switch on the gas pumps turned on. Nothing else was disturbed.

Vaccine From Fats

WASTE FATS ARE not only of value in munitions, Dr. Robert L. Atkinson inculcates a Chinese youngster in New York City with smallpox vaccine obtained from household fats. The glycerine obtained from one tablespoon is enough for 73 such inoculations. (International)

BASES IN AZORES

(Continued from Page 1)

The Azores will afford added protection for one of the most vital sea lanes from the United States to the future fighting on the continent.
Lying at a crossroads of Atlantic shipping 1,603 miles from Newfoundland and 1,400 miles from Britain, the Azores can be used to complete the air umbrella which was raised over the Atlantic and drove the U-boats to desperate new tactics.
In Washington, the United States state department issued the following statement:
"With reference to the statement made by Prime Minister Churchill concerning the use of facilities in the Azores, the agreement on which the statement is based was concluded by virtue of the ancient Anglo-Portuguese alliance. The United States government has been informed and has approved the arrangements made."

Wellsville Hearing Set

EAST LIVERPOOL, Oct. 12—The Columbiana county board of elections today ordered a session Wednesday to determine the sufficiency of a 125-signature petition, asking a special election on local option in the two-precinct Second ward at Wellsville.
Action has been delayed pending receipt of an opinion from Attorney General Thomas J. Herbert of Columbus, and Prosecuting Attorney Frank W. Springer of Lisbon, after Blaine Rish protested the petition, charging the circulators oaths were untrue.

The War Today

By DeWitt MacKenzie

(Continued from Page 1)
patience over the extent of the western Allies war effort.
This matter of the second front is one of the most pressing, and probably one of the most dangerous. Lack of agreement might adversely affect all other discussions.
Then there have been numerous indications of mutual distrust relating to the post-war political set-up of European countries. Russia apparently has felt that the United States and Britain were trying to forestall spread of Communism. The Anglo-American pair have feared that Moscow was fostering the creation of Communist governments.
This dangerous difference can only be removed by elimination of the mutual distrust. Solution presumably means the giving of pledges by both sides that other countries will be allowed to choose their own forms of government without pressure—providing, of course, they don't select Nazism or Fascism.

There's another problem in the Balkans, which Russia regards as her sphere of influence. She has showed anxiety over the interest of the western allies in this theater, although the situation has eased some of late. More than incidentally, the post-war political character of the Balkan states is on the griddle.
So the Allied wheel of fortune spins, and whether the ball drops on "peace" depends in large degree on the forthcoming conferences.

TRY THE SALEM NEWS

NEED BLOOD DONORS

(Continued from Page 1)

nation-wide blood collection project was undertaken at the request of the surgeons general of the Army and Navy by the American Red Cross. A total of 5,300,000 pints of blood has been requested to date.
"This appeal," Dawson declared, "gives every able-bodied resident of Salem a chance to help our men on the battlefields and at sea. Warships throughout the war zones carry blood plasma. Every Army medical unit carries blood plasma with it."
"During the North African campaign, according to a report made by Maj. Gen. Norman T. Kirk, surgeon general of the Army, plasma was the foremost life-saver used by the Army Medical Corps."
Dawson assured donors that contributing a pint of blood is simple and after a short rest the donor feels as fit as ever. Volunteers may be between 18 and 60, but donors between 18 and 21 must have a parent's consent form filled out. These can be obtained from the local Red Cross.

Barn At Leetonia Levelled By Flames

Fire of undetermined origin last night destroyed a large two-story barn on the John Vrabel, Sr., farm near Leetonia. The blaze, discovered by about 6:30 p. m. by Steve Vrabel, 19, a son of the owner, had gained such headway that the entire top was afire and the building was completely burned within an hour despite efforts of the Leetonia fire department to save it.
The younger Vrabel led two miles and four cows out of the barn and neighbors helped pull a tractor from the building, but 50 chickens, small pig, quantities of hay, grain and potatoes were destroyed.
Damage was estimated at \$400. The owner, who is employed at Struthers foundry, was asleep when the fire was discovered.

Discuss Fishing Rules

COLUMBUS, Oct. 12—County Sportsmen's organizations and farmers' groups have been urged by State Conservation Commissioner Don Waters to participate in county-wide meetings to discuss fishing regulations. Dates of the meetings are set by county conservation committees.
